

NVH (NOISE, VIBRATION, HARSHNESS) DAMPING SHEET

Noise insulation sheet better known as sound deadener or Floor Silencer or Kit Melt Sheet is a bitumen based composite used on the cab floor, panel, door, dashboard, over hanging parts of vehicles in passenger car, commercial and utility vehicles for controlling of noise, vibration and harshness.

Typical Physical Properties

Color	: Black
Thickness	: 1.5-3.0 mm
Heat Flow	: No break due to Sagging
Adhesion Strength	: 5.0 Kg/cm ²
Sound Attenuation	: 8-17 db/sec
Smoke temp	: Above 150°C
Thermal fusion	: 50% and above
Dropping	: No Sag crack
Coefficient of damping	: 0.08 and above
Corrosion resistance	: No corrosion
Shrinkage	: <2%

Supply Form: As per Size and profile requirement.
