

## Silicone Heater Hose

**Uses:** Heater Hose is used to transfer high temperature coolant & exhaust emission application.

**Features:**

- Construction 1 ply Nylon / Polyester braiding reinforcement.
- Available in Blue, Red, Black colour as per requirement.
- Application Temperature -55°C to + 180°C.
- Aramid reinforcement for high temperature application -55°C to + 260°C.
- Material & Hose performance as per SAE J20 R3, Class A.
- Standard wall thickness 3.5 mm to 4.5 mm as well as heavy wall.
- Resistance to coolant & coolant additives.
- Resistance to Ozone & UV.
- Available in 25', 50' & 100' roll.

**Sizes**

Sr.	Hose ID, (m m)	Hose OD (m m)	Burst Pressure
1	6.40	13.4	20
2	7.90	14.9	18
3	9.70	16.7	18
3	12.70	19.7	16
4	16.00	24.0	16
5	19.10	27.1	12
6	22.40	32.4	12
7	25.40	35.4	10
