

## Silicone Vacuum Tubing

**Uses:** Unreinforced Silicone Vacuum Tubing is used for vacuum advance, windshield water guard, transmission modulator & emission control system.

**Features:**

- High Tear Strength.
- Available in Blue, Red, Black, Yellow and other colour as per requirement.
- Wall thickness 2.5 mm to 4 mm.
- Custom cut to various reel size.
- Excellent Ozone & UV resistance.
- Working Temperature -55°C to + 180°C.
- Material properties as per SAE J20 Class A.

### Sizes

Sr. No.	Tube ID (mm)	Tube Thickness (mm)
1	2	2.5
2	3	2.5
3	4	2.5
4	5	2.5
5	6	2.5
6	7	3.0
7	8	3.0
8	9	3.0
9	10	3.0
10	12	3.5
11	16	3.5
12	19	3.5
13	20	3.5
14	22	4.0
15	25	4.0
